Applicants have listed the references in the order that is provided on the issued patent with the exception that references which are provided on the 1449 and 892 forms of the '609 application have been removed.

3. A new 1449 form which lists references which are not provided in #1 or #2 above. The header of this 1449 form indicates "NEW". Copies of these references are provided herewith.

Applicants reserve the right to establish the patentability of the claimed invention over any of the information provided herewith, and/or to prove that this information may not be prior art, and/or to prove that this information may not be enabling for the teachings purportedly offered.

This statement should not be construed as a representation that an exhaustive search has been made, or that there does not exist information more material to the examination of the present patent application. The Examiner is specifically requested not to rely solely on the material submitted herewith.

In particular, the Examiner is directed to the prosecution histories of USSN 10/260,609 and USSN 10/218,518.

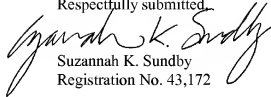

It is further understood that the Examiner will review art of record in all 35 U.S.C. § 120 priority documents.

This Information Disclosure Statement is being filed more than three months after the U.S. filing date and after the mailing date of the first Office Action on the merits, but before the mailing date of a Final Rejection or Notice of Allowance.

The amount of \$180.00 in payment of the fee under 37 C.F.R. § 1.17(p) is being made via a credit card online.

It is respectfully requested that the Examiner initial and return a copy of the enclosed PTO-1449, and to indicate in the official file wrapper of this patent application that the documents have been considered.
